DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 43-46 and 73 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 43-46 and 73 claim a computer readable medium, however, the specification does not describe a computer readable medium. The applicant is required to cancel the claims or show where such limitations are described in the specification.

Allowable Subject Matter

3. Claims 1-42, 47-72 and 74-121 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Regarding claims 1-42, 47-72 and 74-121, prior art fails to suggest or render obvious a method for finding a target as described.
